

## **KNOWLEDGE PORTAL FOR TAXMEN**

For taxmen, the vast repertoire of histories and legislations concerning tax cases would now be just a click away, with the setting up of a knowledge portal, enabling them to adopt a better approach for revenue collection. The department has started to prepare the knowledge portal which will be fully equipped with the best orders, practices and write-ups on various legal issues arising out of the Income-Tax Act. "This maiden initiative is a step towards collating the tacit knowledge existing within this department. Once established, this knowledge portal will work as the central repository of knowledge for the department," member-secretary, committee for compilation of best orders/practices (I-T), Nilimesh Baruah said. The knowledge portal will be dedicated to the department in a week's time, he said.
